About Us

Founded by Mr. Arvind Karella in 1984, JAY EQUIPMENT & SYSTEMS PVT LTD provides world class Material Handling Solutions across all industrial segments in India and more than 20 countries around the world. JAY has developed a team of experts that are capable of handling projects of any size. We are able to help our clients from conceptualization to commissioning and offers full range of customized solutions. Weaving software validated designs, state-of-the-art manufacturing process and severe quality check together has helped us to carve out niche for ourselves. We integrate consultative approach, honesty and business ethics in to all aspects of our business functioning. We provide exceptional customer services by pursuing business through innovation and advanced technology.

JAY EQUIPMENT & SYSTEMS PVT. LTD.
LIFT. SHIFT. MOVE. | Material Handling

Quality always comes first

We are ISO 9001:2015 company and involves both the end to achieve desired quality. We provide our customers high quality products by keeping multiple checks at various process stages from product planning to final delivery.

Well defined process including internal quality audit, experiment & review production manufacturing and collecting & responding to market information helps us to excel every time.

Think safety. act safely.

At JAY, we promote competent safety. We are complying with all relevant legislation & standards like ISO 14001:2015 and applying best industrial manufacturing practices. We conduct safety training program for employees, do risk assessment and embrace occupational safety services for site based personnel.

Protecting, promoting and maintaining the safety of all stakeholders in its areas of operation is our key motto.

Environment: who cares, wins.

Protecting the environment, preventing pollution and ensuring rigorous controls on environmental impacts is what we believe.

We are OHSAS 18001:2007 compliant and all our equipment are battery operated & designed as per international standards and perform efficiently to suit every need.

Rental

We also provide rental solution of well-maintained equipment, these equipment regularly passes all necessary checks so you enjoy uninterrupted productivity.

After sales

We offer comprehensive after sales service package including condition tests, preventive maintenance, customers training, emergency service & annual maintenance contract. It ensures that your operations never stops and continuously supported by experts.

With wide network across the nation, we are just a phone call away.
